BIOMETRIKA

VOLUME 68

1981

Editor
D. R. COX

Business Manager
R. F. GALBRAITH

Associate Editors
J. A. Anderson
A. C. Atkinson
R. A. Bailey
R. M. Cormack
M. J. R. Healy
P. Newbold
D. Oakes
B. D. Ripley
S. D. Silvey
D. M. Titterington

PUBLISHED BY
BIOMETRIKA TRUST, UNIVERSITY COLLEGE LONDON

© 1981 Biometrika Trust ISSN 0006–3444

Typeset and printed in Great Britain by
John Wright & Sons (Printing) Ltd, at The Stonebridge Press, Bristol

Contents of Volume 68

PAGE

ARANDA-ORDAZ, F. J. On two families of transformations to additivity for binary response data 357

ASAD, H. (*See* SAMIUDDIN, M.)

ATKINSON, A. C. Two graphical displays for outlying and influential observations in regression 13

AZZALINI, A. A note on the estimation of a distribution function and quantiles by a kernel method 326

BARLOW, R. E. and WU, A. S. Preposterior analysis of Bayes estimators of mean life 403

BARTMANN, F. C. and BLOOMFIELD, P. Inefficiency and correlation 67

BASAWA, I. V. Efficient conditional tests for mixture experiments with applications to the birth and branching processes 153

BASAWA, I. V. Efficiency of conditional maximum likelihood estimators and confidence limits for mixtures of exponential families. 515

BECKER, N. The infectiousness of a disease within households 133

BERMAN, M. Inhomogeneous and modulated gamma processes 143

BERRY, K. J. (*See* MIELKE, P. W.)

BESAG, J. On resistant techniques and statistical analysis. 463

BINDER, D. A. Approximations to Bayesian clustering rules 275

BLAESILD, P. The two-dimensional hyperbolic distribution and related distributions, with an application to Johannsen's bean data 251

BLOOMFIELD, P. (*See* BARTMANN, F. C.)

BRESLOW, N. Odds ratio estimators when the data are sparse 73

BROCKWELL, P. J. (*See* MIELKE, P. W.)

BROWN, B. M. Symmetric quantile averages and related estimators . . . 235

CAMPBELL, G. Nonparametric bivariate estimation with randomly censored data 417

CARROLL, R. J. and RUPPERT, D. On prediction and the power transformation family. 609

CASTLEDINE, B. J. A Bayesian analysis of multiple-recapture sampling for a closed population 197

CHAMBERS, R. L. and HEATHCOTE, C. R. On the estimation of slope and the identification of outliers in linear regression 21

CHENG, C.-S. and WU, C.-F. Nearly balanced incomplete block designs . . 493

CHERNOFF, H. and PETKAU, A. J. Sequential medical trials involving paired data 119

COOPER, D. M. and WOOD, E. F. Estimation of the parameters of the Markovian representation of the autoregressive-moving average model . . . 320

CRYER, J. D. and LEDOLTER, J. Small-sample properties of the maximum likelihood estimator in the first-order moving average model . . . 691

CSÖRGŐ, S. and HORVÁTH, L. On the Koziol–Green model for random censorship 391

DAWID, A. P. Some matrix-variate distribution theory: Notational considerations and a Bayesian application. 265

D'ESTE, G. M. A Morgenstern-type bivariate gamma distribution 339

EFRON, B. Nonparametric estimates of standard error: The jackknife, the bootstrap and other methods 589

EJIGOU, A. and MCHUGH, R. Relative risk estimation under multiple matching 85
FELTON, R. (*See* SEBER, G. A. F.)
FERREIRA, P. E. Extending Fisher's measure of information 695
FERREIRA, P. E. and MINDER, C. E. On a concept of ancillarity 344
FISHER, N. I. and LEE, A. J. Nonparametric measures of angular-linear association 629
FREEDMAN, L. S. Watson's U_N^2 statistic for a discrete distribution 708
GABLER, S. A comparison of Sampford's sampling procedure versus unequal probability sampling with replacement 725
GAIL, M. H., LUBIN, J. H. and RUBINSTEIN, L. V. Likelihood calculations for matched case-control studies and survival studies with tied death times . 703
GEISSER, S. Sample reuse procedures for prediction of the unobserved portion of a partially observed vector 243
GOLDIE, C. M. (*See* GOUDIE, I. B. J.)
GOODMAN, L. A. Association models and the bivariate normal for contingency tables with ordered categories 347
GOUDIE, I. B. J. and GOLDIE, C. M. Initial size estimation for the linear pure death process 543
HAGGAN, V. and OZAKI, T. Modelling nonlinear random vibrations using an amplitude-dependent autoregressive time series model 189
HALL, P. On nonparametric multivariate binary discrimination 287
HALL, P. Optimal near neighbour estimator for use in discriminant analysis . 572
HALL, W. B. and JARRETT, R. G. Nonresolvable incomplete block designs with few replicates 617
HAYRE, L. S. and TURNBULL, B. W. Sequential estimation in two-armed exponential clinical trials 411
HAYRE, L. S. and TURNBULL, B. W. Estimation of the odds ratio in the two-armed bandit problem 661
HEATHCOTE, C. R. and SILVAPULLE, M. J. Minimum mean squared estimation of location and scale parameters under misspecification of the model . . 501
HEATHCOTE, C. R. (*See* CHAMBERS, R. L.)
HILL, C. Asymptotic relative efficiency of survival tests with covariates . . 699
HOLGATE, P. Studies in the history of probability and statistics XXXIX. Buffon's cycloid 712
HORVÁTH, L. (*See* CSÖRGŐ, S.)
